PSYC 7730	PSYC Elective from Group C	3

9. Justification for Program:

This program directly relates to the Mission statement and Strategic Plan associated with the commitment for offering high quality programs and education. Strategic Plan #1 emphasizes enhancing student success. As such, this program will provide a mechanism towards student success by offering our Auburn students a unique opportunity to earn a master's degree in Industrial/Organizational Psychology along with their bachelor's degree in 5 years. The Bureau of Labor and Statistics has projected that Industrial/Organizational Psychology will be the fastest growing job and there is high demand for people with this level of training. Thus, students have an opportunity to receive a degree that has both good job prospects and work in applied settings. Additionally, Auburn will be unique in providing this specific program in the Southeastern region. This program will increase the visibility of Industrial/Organizational Psychology program as well as promote Auburn University's reputation for academic success.

(Include a concise, yet adequate rationale for the proposal of the accelerated program -- citing such factors as market need, student demand, etc.)

10. Application Process:

Students will apply for program in the junior year of their undergraduate degree at Auburn University via the Department of Psychology.

Students must have a GPA of 3.4 or higher and submit GRE scores to be considered for this program. In addition, students will submit a letter of intent and letters of recommendation during the Department of Psychology application process for consideration for the ABM program in Industrial and Organizational Psychology. Details of the ABM program and deadlines for consideration to this program will be available on the Department of Psychology's homepage (after the ABM program is officially approved).

The Industrial/Organizational (I/O) psychology faculty will review all applications to determine student's suitability and entrance into the ABM program.

Students will be notified of their status for the ABM program usually before the end of spring semester (if not sooner) of their junior year which allows sufficient time to enroll in subsequent coursework. The Department of Psychology will notify the Graduate School with a list of students for approval to pursue the ABM in Industrial and Organizational Psychology.

Students accepted to pursue an ABM will be allowed to register for the 7000 level courses denoted above beginning in the Fall of their senior year.

(Outline the process for acceptance into the accelerated program; include all necessary departmental, college, and other approvals that will be necessary)

11. Program Matriculation:

Students will matriculate in the accelerated program during the Fall semester of their senior year of their undergraduate degree. According to the model, students will complete the Bachelor of Arts in Psychology (the Spring semester following their matriculation into the program which is the last semester of a typical Bachelor's degree program. The M.S. in Industrial and Organizational Psychology would be completed at the end of the summer term (August) of the subsequent year. Hence, students will earn the M.S. degree 15 months after receiving their B.A. degree.

Qualified undergraduate students enrolled at Auburn University will have the opportunity to earn both a B.A. in Psychology and a M.S. degree in the Industrial and Organizational Psychology in 5 years.

(Provide a brief narration of the program, as it will be taken by students; include estimated timeframes for application to the graduate portion of the program, completion of the undergraduate portion of the program, and any internships/field experience)

12. Academic Advising:

Undergraduate students in Psychology meet with an academic advisor in the College of Liberal Arts as well as advisors in the Department of Psychology.

Students enrolled in the Accelerated Bachelor's and Master's (ABM) program (ABM) will meet each semester with the I/O Program Director and I/O psychology faculty are also available for advising.

(Address how academic advising for the student will be handled, from undergraduate program admission through completion of the accelerated program)

13. Withdrawal Process:

Students may withdraw voluntarily from the program by notifying the I/O Program Director and the Graduate Coordinator (Mr. Thane Bryant) in the Department of Psychology.

(Outline both the process for withdrawing from the accelerated program, as well as the implications on matriculation and earning of undergraduate and graduate degrees)

14. Additional Information:

(Include any additional information regarding the accelerated program that may be pertinent to its review and approval)

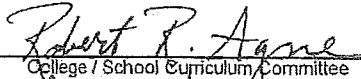

Curriculum Models

(Please attach the proposed curriculum models for both the undergraduate and graduate components of the accelerated degree program; a current model for each may be provided as well, for comparative purposes)

Total Hours: 120

- 1 Students should meet with the psychology adviser to determine approved course listings for psychology electives and other electives. It is recommended that students take foundational courses (those listed in Groups A and B) in their junior year and advanced electives (those in Group C) in their senior year.
- 2 If Literature requirement was completed prior to Fall 2013, Core Humanities must cover SLO 3.
- 3 COMM 1000 fulfills SLO 7.

Psychology Major Curriculum: Total 36 Hours

PSYCHOLOGY CORE COURSES: 12 CREDIT HOURS

All of the following courses must be completed before taking 3000 and above psychology courses.

PSYC 2010/2013/2017	Introduction to Psychology
STAT 2010	Statistics for the Social and Behavioral Sciences (4)
PSYC 2140/2143	Research Methods in Psychology (4)
PSYC 2020	Orientation to the Psychology Major (1)

PSYCHOLOGY MAJOR COURSES: 24 CREDIT HOURS

6 Total Courses: Take 2 courses from Group A, 2 courses from Group B, & 2 courses from Group C
